- The Dunston playground is an excellent example. full of varied play frames etc. The potterhanworth playground could do with a few more updated pieces of equipment.

- It is a terrible park that is unsafe and not suitable for children. It needs a completely new play park. There is zero need for adult activities. At the moment you need a car to drive to a decent park. We just need a park for kids that fun and safe and clean.

Having 3 small children the play area is the biggest priority for me and i would like to see development in the equipment. . having a play area in walking distance is really important and if the equipment was upgraded we would definitely spend more time there as a family.
